

THE PRIORITY MALE INSTITUTE

The Partnership that "works" for you

Employers need people, who are *dependable, productive and fully equipped* with the skills to excel in the workplace. The *Priority Male Institute Partnership* will match employers with good employees to meet their business needs.

The *Priority Male Institute (PMI)* offers employers the opportunity to enter into a win-win partnership, by providing employment and/or internship opportunities to at-risk young males, between the ages of 18 and 28, who are enrolled in the *PMI*, a supervised job readiness program.

PMI makes hiring easy for employers by:

- *Pre-screening* potential employees to determine *backgrounds, career goals, skill sets, interests and experience levels.*
- *Training* at-risk applicants in essential skills, including *interpersonal skills, goal setting, career development, teamwork, customer service, time management, conflict resolution, communication skills,* and other life skills.
- *Coaching* applicants in *work ethics, personal development, quality assurance,* and other job readiness skills.
- *Mentoring* hired employees or interns to encourage *excellence* in job performance.
- *Following-up* with partnership employers and hired employees to ensure success.

When employers partner with the *Priority Male Institute*, they receive the professional support of committed and qualified counselors who assist in placing program participants in available positions, and providing post-employment coaching to insure that employer expectations are met. It makes great business sense!
